Kills Roaches Where They Live and Breed Ready-to-Use Paste Bait Non-Dripping

Active Ingredient: Orthoboric Acid.....30%
Other Ingredients.....70%
Total.....100%

EPA Reg. No.: 73079-5
EPA Est. No.: 73079-MO-1
Net Contents: 5 x 35 g syringes

KEEP OUT OF REACH OF CHILDREN CAUTION

Directions for Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Use Restrictions

In food areas of restaurants, residential, health care, educational, daycare, agricultural buildings, animal rearing and handling establishments, food handling and food processing establishments, this product may only be applied as a crack and crevice treatment. Any product remaining outside of cracks and crevices must be cleaned up and removed.

Applications Directions

Use Sites: In and around residential, multi-family, commercial, industrial, municipal, institutional, research, recreational, health care, educational, daycare, hospitality and agricultural buildings and other man-made structures, garages, transport vehicles, sewers, animal rearing and handling establishments and food handling and food processing establishments.

How the Bait Works: Roaches live and breed where it is warm and dark and where there is access to food and food scraps. Small, confined spaces are very attractive. Cockroaches are attracted to InTice Roach Bait. They feed on the bait and most will return to their normal habitat to die. Others may die closer to the bait.

Place bait in the kitchen and other areas where roaches are likely to be found, such as the laundry and bathroom, and any other areas that offer a warm, dark, moist, secluded environ-

ment - such as behind sinks, cupboards, refrigerators, stoves, hot water systems and washing machines. Use pea-sized placements. For heavier infestations, use a larger number of pea-sized placements. Heavier infestations may require a re-application of bait. Place bait in areas inaccessible to children and pets, or in tamper-resistant bait stations. Avoid contamination of foodstuffs. Do not place bait where food is being prepared or on utensils that are used for food preparation.

Food Processing and Handling Establishment Application, including Federally-Inspected Meat and Poultry Plants: Follow instructions for other sites as appropriate. **In food areas, only apply bait in cracks, crevices, and other inaccessible areas.** Avoid contamination of food and feedstuffs. Never apply bait directly to a surface where food is stored, prepared or served. Any bait that is left visible after treatment should be removed and the exposed surface washed.

Storage and Disposal

Do not contaminate water, food or feed by storage or disposal.

Storage: Store in a dry place. Do not store where children or animals may gain access.

Disposal: If empty: Do not reuse this container. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency or **1-800-CLEANUP** which is managed as a public-private partnership.

Warranty Limitations and Disclaimer

Seller makes no warranty expressed or implied, concerning the use of this product other than as indicated on the label. Buyer accepts this material subject to these terms, and assumes all risk of usage and handling except when used or handled in accordance with this label. There are no expressed or implied warranties of merchantability or fitness for any particular purpose, except as specifically stated herein. Manufacturer shall not be liable for any consequential damages based on the use of the product.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals: CAUTION: Harmful if swallowed or absorbed through the skin. Causes eye irritation. Avoid contact with skin, eyes or clothing. Wash hands thoroughly with soap and water after use and before eating, drinking, chewing gum, using tobacco or using the toilet.

First Aid

If Swallowed: Call a doctor or poison control center for treatment advice. Drink 1 to 2 glasses of water and induce vomiting by touching back of throat with finger. If person is unconscious, do not give anything by mouth and do not induce vomiting.

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first five minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If on Skin: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. Have the product or label with you when calling a Poison Control Center or doctor or going for treatment. In case of emergency, for additional information call **1 800 858 7378**.
