

# Product Analysis Request

*How to send Aprehend samples for active ingredient viability testing.*

**Do not send samples without prior authorization from ConidioTec.**

*Samples received without prior communication will be discarded.*

This is a free service offered by ConidioTec and limited to 4 samples per request. Although we make every effort to produce results quickly, testing may take up to 2 weeks. Lot number is required for testing (Figure 1).

Please follow the instructions and provide all information requested on this form. ConidioTec reserves the right to decline testing if these directions are not followed or information is incomplete. Samples must arrive at ConidioTec within 3 days of sample collection. Send this completed form and samples via USPS Priority Mail, FedEx 2-Day, or UPS 2nd Day Air to: ConidioTec, 2440 Earlytown Road, Suite 600, Centre Hall, PA, 16828.

There are two ways to send Aprehend samples for analysis.

## 1) Cotton swab method - Preferred Method

- This method allows you to keep your bottle for immediate use if results illustrate viable product.
- Cotton swab samples in zipper-seal bags must arrive at ConidioTec within 3 days of sample collection.

**Step 1)** Invert and shake the Aprehend bottle well.

**Step 2)** Dip a cotton swab in the Aprehend.

**Step 3)** Place the swab in an unused zipper-seal bag. Label the bag and send it immediately.

## 2) In the original Aprehend bottle.

- Send your Aprehend sample in its original container.
- DO NOT transfer sample to a different bottle. Contamination is likely and accurate testing is impossible.
- Volume required: 0.1 to 0.5 fl oz
- ALWAYS place the bottle in a ziplock bag in case of leakage.
- If testing results in viable product, you can choose to have the product returned to you (shipping charges may apply).

## Required Information

Company name \_\_\_\_\_

Contact name \_\_\_\_\_

Phone \_\_\_\_\_

Email \_\_\_\_\_

City, state, postal code \_\_\_\_\_

Aprehend Lot# \_\_\_\_\_ Expiration date \_\_\_\_\_

Why are you requesting this test? Please describe the situation or circumstances that cause you to have concern about its efficacy. \_\_\_\_\_

We will email your results as soon as they are available. If you would like to discuss the results, please contact Nina at 800-891-8610, ext. 0.
