

# Surface Sample Analysis Request

How to send samples of Aprehend applied on surfaces to verify active ingredient residual activity.

**Do not send samples without prior authorization from Rockwell Labs Ltd.**

*Samples received without prior communication will be discarded.*

This is a free service offered by Rockwell Labs Ltd and limited to 4 samples per request. Although we make every effort to produce results quickly, testing may take up to 2 weeks. Lot number is required for testing (Figure 1).

Please follow the instructions and provide all information requested on this form. Rockwell Labs Ltd reserves the right to decline testing if these directions are not followed or information is incomplete. Samples must arrive at Rockwell Labs Ltd within 3 days of sample collection. Send this completed form and samples via USPS Priority Mail, FedEx 2-Day, or UPS 2nd Day Air to: Rockwell Labs Ltd, Attn: Laboratory, 1257 Bedford Ave, North Kansas City, MO 64116

**You will need:** cotton swab, vegetable, sunflower, or canola oil. DO NOT use olive oil or blend oils.

**Step 1)** Remove cotton tip from one side of the swab.

**Step 2)** Dip the swab in oil.

**Step 3)** Use the oiled swab to remove Aprehend spore residue from a 2-inch-square area. Choose an area where you are certain Aprehend was applied.

**Step 4)** Place the swab in an unused zipper-seal bag.

**Step 5)** Label the bag with collection date, location, and surface type. Send to Rockwell Labs Ltd immediately.

### Required Information

Company name \_\_\_\_\_

Contact name \_\_\_\_\_

Phone \_\_\_\_\_

Email \_\_\_\_\_

City, state, postal code \_\_\_\_\_

Aprehend lot# \_\_\_\_\_ Expiration date \_\_\_\_\_
